Recent Projects

SciVite | Web Developer and Designer | January – May 2025 | <http://dtc-wsuv.org/projects/scivite/>

A virtual interactive tour experience for the WSU Vancouver's Life Sciences Building, commissioned by the university for the purpose of recruitment and promotions.

- Participated in a team of eight members to create the main website project layout, flowchart, and wireframe.
- Collaborated in a group of four to produce an Interactive Timeline. Six panels of 27 of 937 archival materials across 10 years of documented planning.
- Assembled the mobile wireframe. A well as, contributed to the HTML coding of the Spaces and Timeline webpages. Also, worked on the mobile CSS for the Timeline. The website is 8,187 lines of code.
- Utilized GitHub to collaborate with the team, 27 of the 259 commits to the SciVite repository to build the website.

5 Famous Mountains of the Pacific Northwest | Spring 2023 | <https://dtc-wsuv.org/kshupien22/map/>

A map to change location as the user scrolls down/up the information section.

- Implemented Mapbox code includes 'Fly to a location based on scroll position,' 'Add a line to a map using a GeoJSON source,' and 'Add a default marker to a web map.'
- Leveraged ChatGPT to paraphrase information from Wikipedia and assist with coding.
- Designed the website with a responsive layout and applied a visual hierarchy.
